Please assist us to choose the puppy that is the best possible match for you and your family by answering the questions below and returning this form to us as soon as possible. Of course, all of our puppies are intended to have sound bodies and temperaments and will conform as closely as possible to the A.K.C. standard, but just as each child has a different personality, so do puppies. It is our wish that each puppy that we produce go to the home where both the owner and the puppy will have the best relationship. Our puppies live in our home with us until they leave for their new homes. We are able to observe the puppies under many different circumstances and our years of experience with breeding enables us to match each puppy to the correct home very accurately.
